MODIFICATION of  
Cessation Order

To the following Permittee or Operator:

Name: Alpine Gem & Minerals/ Paul Lamoreaux

Mailing Address: 195 North 200 East, Parowan, Utah 84761

Mine Name: Butler Valley Quarries Permit Number: S/025/016

Utah Mined Land Reclamation Act, Section 40-8-1 et. seq., *Utah Code Annotated (1953)*:

Cessation Order No MC-2005-02-05(1) dated August 24, 2005

Part 1 of 1 is modified as follows: The posting of the \$40,000 bond has been modified to read that the operator must show that the \$15,000 bond presently posted with the BLM is sufficient to reclaim the disturbance at the site.

Reason for modification is: The operator is presently preparing evidence that will demonstrate that the disturbance at the site that is required to be bonded is less than the 8.14 acres GPS'd by the Division.

Part 2 of 2 is modified as follows: The submission of a MR-LMO for this site will no longer be necessary if the operator can demonstrate that the disturbances do not exceed the 5 acre limit.

Reason for modification is: The operator is contending that portions of the areas GPS'd by the Division have been reclaimed for a period greater than one year. Removal of these areas from the total acreage at the site would be sufficient to allow the operator to remain under 5 acres which would negate the necessity of filing a MR-LMO.
